

## GUEST PROTOCOLS IN CAMP

Dear Guest,

With the recent changes/Relaxation of COVID Protocols in South Africa by the Government on **22nd June 2022** we have amended our protocols to below:

- 1 We do request that you report to management if you are feeling unwell or feel you have COVID symptoms.
- 2 Please sanitise or wash your hands regularly. There are sanitiser bottles in the public areas.
- 3 Please ensure you cough or sneeze away from other people and into your elbow.
- 4 Please co-operate with Management if you have COVID symptoms and are isolated in your room.
- 5 Please ensure you have your face mask washed every 24hrs if you have used it.
- 6 Only send in your essential items for laundry.
- 7 We will now be offering buffets at some meals . Please ensure you sanitise your hands. Any guest who wishes to only have plated meals please inform management.
- 8 We will also restart communal dinners where a few times per week guests will be seated at the same table. If you don't feel comfortable with this please inform management during the day prior to dinner or once you have checked in.
- 9 To summarise, we wish to make your stay as free as possible within the laws/confines of the country, but at the same time keep a very careful eye on Health and COVID protocols.
- 10 Refunds for COVID are no longer being done. COVID is classed now as a "Normal Sickness similar to Flu. Ensure you have Travel and Health Insurance.

If you have any questions or concerns please do not hesitate to inform Management or myself.

Best Regards  
Bernie
